

## Installations of ENTEX Products

### Mt. Wolf, PA

AeroMod's SEQUOX BNR process was selected as the supplier for upgrading the 1.7 MGD Mt. Wolf, PA wastewater treatment. AeroMod asked Entex to participate with them on this project by providing eight Webitat modules to be installed at the end of their system to provide enhanced nitrification and denitrification.

Construction of the system began in the fall of 2009 with startup in the summer of 2010.

#### Media Installed

Eight Webitat modules with over 71,500 ft<sup>2</sup> of BioWeb media
